OUR INNOVATIONS

LOGISGRIPS® PRODUCTS

Hygiene Products

For permanent protection against viruses and bacteria! Protect surfaces in the long term.

Antislip Products

Highest functional values in terms of sliding friction coefficients, slip resistance and load-bearing capacity

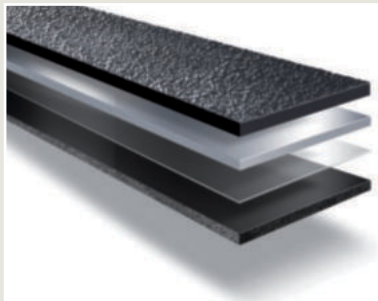

Wear and product protection

Special coatings protect surfaces against stress, wear and impact

Antidrumming Products

The silencer for all types of applications, reduces noise by up to 85% (25 dB, TÜV tested).

InstantFit Technologies

Transforms slow curing coatings into immediately usable products

Confectioning

KissCut machines, die cutting, tool-less manufacturing (CNC), milling, laser cutting, cutting plotting, laminating, vulnizing and gluing, sawing and cutting to length, cut-off and strip cutting

MY
COMPANY
IS SAFE

Antiviral Products

Permanent protection of surfaces against
viruses and bacteria

Increased safety due to permanent disinfection
especially between cleaning cycles

Made in Germany

ISO 9001 · Tier-1 Automotive · TÜV Nord · TÜV Rheinland · DEKRA · 3G

WWW.LOGISGRIPS.COM

GRIPS® Antiviralfoil for surfaces, door and window handles, push-to-open drawers and cabinet doors

GRIPS® Antiviralfoil Touchscreen

GRIPS® Antiviralsealantcloth for small areas up to 0.5 m². In sachet together with cleaning cloth for quick and easy application (e.g. electronics, sanitary, furniture).

GRIPS® Antiviralsealant for areas up to 20 m². Bottle filling for professional use

Advantages:

- ✓ Permanent protection without "gaps" between cleaning cycles
- ✓ Reduction of the risk of infection against a wide range of infectious diseases
- ✓ Easy application without experts
- ✓ Makes >99.98% of all enveloped viruses and bacteria harmless
- ✓ Surface protection against wear and tear
- ✓ Lasts at least one year
- ✓ Efficacy tested and confirmed by EUROVIR® hygiene laboratory
- ✓ Skin compatibility dermatologically tested with "VERY GOOD"
- ✓ Flame retardant tested according to building material class B1
- ✓ Certified safety certificate Approved according to DIN EN 71-3 test ("toy standard")
- ✓ Registered with the Federal Office for Occupational Safety and Health

NO SLIPPING
AND SLIDING

GRIPS[®] Antislip Products

LOGIS

Highest functional values in terms of sliding friction coefficients, slip resistance and load-bearing capacity

High performance coatings without Plasticizers

High safety requirements: Sliding friction coefficients up to $0.8\mu D$ and slip resistance up to R12

Retrofittable and prefabricated available

ISO 9001 · Tier-1 Automotive · TÜV Nord · TÜV Rheinland · DEKRA · 3G

safe
coating

GRIPS[®] Wear and product protection

LOGIS

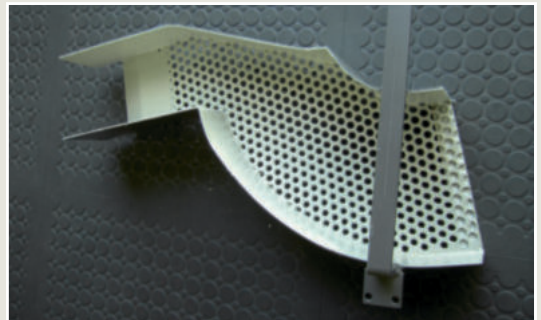

Special coatings protect surfaces against stress,
wear and impact

Protective coatings with or without
foam layer

Self-adhesive or magnetically
adherent

Durable high quality PU without
plasticizer

ISO 9001 · Tier-1 Automotive · TÜV Nord · TÜV Rheinland · DEKRA · 3G

GRIPS[®] Antidrumming Products

LOGIS

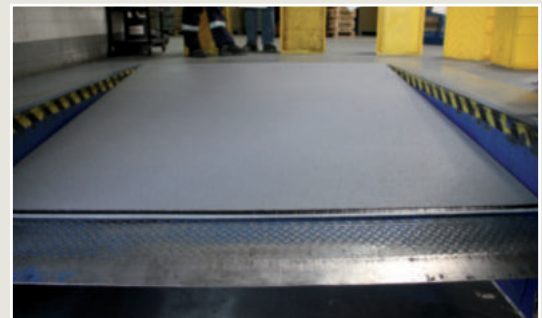

The silencer for applications of any kind, reduces noise by up to 85% (25 dB, TÜV-tested)

Sound-absorbing drive-over ramps for noise reduction by approx. 85% or 25 dB

Slip resistance class R12

Easy installation. Usually ready for use after one hour
